

SINGLE AND MULTIPLE VESA MOUNT SYSTEM

The single or multiple monitor mounting system provides rack mounting of VESA Standard (75mm, 100mm and 100 x 200mm) mount monitors in single and multiple mounting configurations.

The system is comprised of an adjustable rack mounted bracket, plus the required mounting plates and adapters necessary to mount the desired monitor combinations. The system provides settings for in and out adjustment as well as tilt adjustment to obtain better monitor viewing angles. Horizontal adjustment of the monitor(s) is also provided which allows flexible monitor positioning.

Monitors may be mounted in portrait and/or landscape directions as well as mixing different sizes as shown in examples below:

75mm Left/Right RDMP-2U03/2U04
100mm Left/Right RDMP-2U05/2U06

Single 20" Monitor

Single 24" Monitor

Dual 24" Monitors

Triple 17" Monitors

Dual 22" Monitors

Dual 17" and Single 22" Monitors

Dual 24" Monitors tilted down for improved viewing.
